

John Doe

Control Technologist

Houston, TX | john.doe@email.com | +1 (555) 234-5678 | [linkedin.com/in/johndoe](https://www.linkedin.com/in/johndoe)

PROFESSIONAL SUMMARY

Control Systems Engineer with 8+ years of experience in electrical control system design, PLC programming (Allen-Bradley/Rockwell), and HMI/SCADA development for industrial automation. Proven ability to design control panels, develop detailed schematics, and commission automated systems. Strong background in troubleshooting industrial equipment, coordinating with multidisciplinary teams, and delivering technical documentation. Adept at ensuring compliance with industry standards and providing hands-on support from design through start-up.

CORE SKILLS

- Process instrumentation design and specification
- P&ID development and interpretation
- Instrument index and specification sheets (ISA data sheets)
- Loop diagrams and wiring design
- Hook-up drawings and installation details
- DCS configuration (Honeywell Experion, Emerson DeltaV)
- PLC programming (Allen-Bradley, Siemens S7)
- SCADA systems and HMI design
- SIS design per IEC 61511 / ISA 84
- SIL verification and validation
- Instrument calibration and loop checking
- HART / Foundation Fieldbus / Profibus protocols
- Smart transmitter configuration (Emerson, Yokogawa, Endress+Hauser)
- Calibration management (Beamex CMX, Fluke tools)
- Project planning and execution
- Vendor technical evaluation and procurement
- FAT / SAT coordination
- Commissioning and start-up support
- Technical documentation and as-built records
- SmartPlant Instrumentation (SPI / INtools)
- AutoCAD / MicroStation
- MATLAB / Simulink
- SAP PM module
- Microsoft Office Suite
- Rockwell RSLogix 5000 / Studio 5000
- FactoryTalk View HMI development
- PowerFlex drive configuration
- Control panel design and schematics
- Electrical troubleshooting and wiring
- Industrial equipment diagnostics and repair
- Customer technical support and training

PROFESSIONAL EXPERIENCE

Senior Instrumentation Engineer

Jan 2021 - Present

Petronova Engineering Houston, TX

- Lead instrumentation engineering for greenfield and brownfield projects valued at \$50M+
- Develop instrument specifications, data sheets, and hook-up drawings for pressure, temperature, level, and flow instruments
- Design and review P&IDs, loop diagrams, and cable schedules using SmartPlant Instrumentation
- Configure and commission DCS (Honeywell Experion) and SIS (Triconex) for refinery units
- Conduct SIL verification studies and prepare safety requirement specifications (SRS)
- Coordinate with multidisciplinary teams (process, electrical, piping) during FEED and detailed design
- Mentor junior engineers and review deliverables for quality assurance

Instrumentation Engineer

Mar 2017 - Dec 2020

Gulf Coast Process Solutions Pasadena, TX

- Executed instrumentation detailed design for petrochemical and gas processing facilities
- Prepared instrument index, I/O lists, junction box layouts, and cable routing drawings
- Performed loop checking, calibration, and pre-commissioning of 2,000+ instrument loops
- Configured HART smart transmitters and control valves with digital positioners
- Supported DCS (Emerson DeltaV) point-to-point checkout and logic validation
- Participated in HAZOP reviews and implemented LOPA recommendations

Junior Instrumentation Engineer

Jun 2014 - Feb 2017

Meridian Industrial Services Baton Rouge, LA

- Assisted in design and installation of instrumentation for power plant upgrades
- Created instrument hook-up drawings and typical installation details in AutoCAD
- Performed field calibration of pressure, temperature, level, and flow transmitters
- Maintained calibration records and updated instrument database in SPI/INtools
- Supported plant turnaround activities including instrument inspection and replacement

EDUCATION

B.Sc. in Electrical Engineering (Instrumentation & Control)

2014

Louisiana State University Baton Rouge, LA

CERTIFICATIONS

PROFESSIONAL MEMBERSHIPS

- International Society of Automation (ISA) - Senior Member
- Society of Petroleum Engineers (SPE)

LANGUAGES

- English - Native
- Spanish - Professional working proficiency
